# Essential Booking Engine

P3 Essential is a simple and easy solution to capture direct bookings for one or multiple hotels.

P3 will build your booking engine with your own logos, colors, fonts and images to create a design style that is true to your brand. Our easy-to-use and intuitive CMS allows you to edit your rooms, rates and packages content.

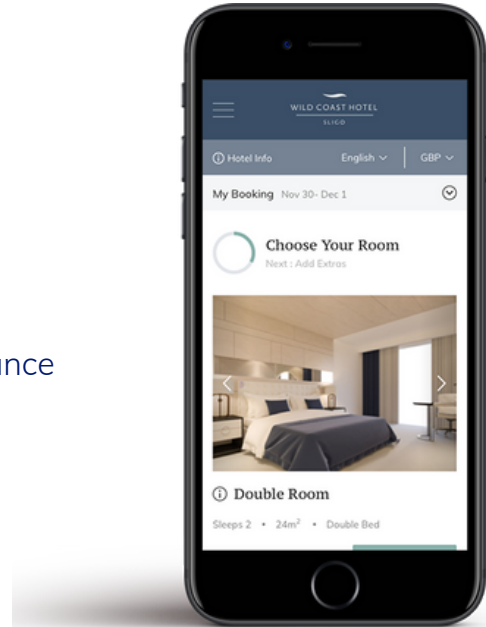

As an Oracle Hospitality customer, we guarantee a fast transition from your previous booking system to P3 Essential.

Don't worry about complex integrations and software installation. Because of our direct connection with your OPERA System, your staff can easily implement the Essential booking engine with the help of our support team.

# Custom Booking Engine

P3 Custom is perfect for larger independent hotels and hotel chains looking for a customizable solution.

We take time to understand your business, your product offering and your typical guests' profiles to create a unique booking engine that truly reflects the look & feel of your website style.

We give you the flexibility to add functionality and design elements tailored to your brand and business needs.

We believe that an engaging user experience yields a greater conversion rate. With an uplift in website traffic and conversion rate, the compound effect will generate a significant growth in your direct booking revenue.

# OPERA Integration

P3 is a Strategic Oracle Partner. Our solutions integrate solely with OPERA to offer ease of use, time savings and increased revenue for hoteliers.

Our extensive experience in working with OPERA systems ensures our clients get the best support on an ongoing basis for their Essential and Custom booking engines.

We integrate with OPERA versions from 5.5 on-premise and hosted through OWS and OPERA Cloud through OHIP.

We also ensure a fluid transition for hotels moving from OPERA on-premise to OPERA Cloud.
